SUMMARY

Software engineer and founder with experience building AI agents, SaaS platforms, developer tools, and scalable infrastructure. Built software serving 400+ monthly active users and an open-source project used by 10k+ websites, with 2.0k+ GitHub stars and 100k+ downloads.

WORK EXPERIENCE

Sun Life

May. 2026 – Aug. 2026

Associate Software Engineer Intern

Montreal, QC

- Developed agent components with Dialogue's SDA engineering team for Dialogue's AI Care Navigator, helping members identify suitable virtual health care services based on their needs and eligibility.
- Built LangChain tools and Temporal workflows to retrieve member eligibility data and generate service recommendations, using Langfuse to trace executions and evaluate recommendation quality.

Pwno

Mar. 2025 – Jan. 2026

Co-founder & Lead Engineer

Montreal, QC

- Shipped an AI SaaS for memory-bug detection, building the UI/UX, application backend, and LangGraph/LangSmith workflow visualization.
- Built core full-stack infrastructure, including secure authentication, RBAC, and Stripe billing.

AI Chat Platform

Jan. 2023 – Present

Founder

Montreal, QC

- Launched a subscription AI app using OpenAI APIs (chat + video) with Next.js, Postgres, and Redis.
- 400+ monthly active users, CAD \$1,500+ MRR.

EDUCATION

McGill University

Sep. 2026 – Expected Feb. 2030

Computer Engineering, Bachelor of Engineering

Montreal, QC

Dawson College

Sep. 2024 – Jun. 2026

Science, Computer Science and Mathematics, DEC

Montreal, QC

PROJECTS

Lumon Personal AI Assistant

Feb. 2025

- Built a multi-agent assistant using a conductor/worker architecture to orchestrate specialized agents.
- Built persistent semantic memory with FAISS and semantic retrieval.

hexo-theme-redefine

Dec. 2022 – Present

- Built and maintain a popular Hexo blog theme (2.0k+ GitHub stars, 100k+ downloads, ~2k monthly users).
- Resolved 200+ GitHub issues (bugs + feature requests) and managed releases.

Evanovation Infrastructure

Sep. 2024 – Present

- Engineered self-hosted infrastructure (Docker, Traefik) managing 10+ secure PostgreSQL/Redis instances.
- Built an admin API with FastAPI to monitor and manage database instance lifecycles.

SKILLS

- **Languages & Frameworks:** TypeScript, Python, React, Next.js, FastAPI, FastMCP, Node.js
- **AI & Workflow:** LangChain, LangGraph, Langfuse, RAG, FAISS, Qdrant, BM25, Arize Phoenix, Temporal
- **Infrastructure:** PostgreSQL, Redis, Docker, Traefik, Temporal, CircleCI, GitHub Actions
